## Language Courses

The ability to communicate in different languages is a priceless gift and enables you to make friends with other campers from all across the globe. Why not developing your language skills during your holidays? All our Language courses are solely carried out by native speakers in internationally mixed classes with no more than 12 students. At the beginning of the stay your level will be assessed by our experienced teachers to ensure that you are placed in the right class, according to your language abilities. Our courses comprise 20 units per week but no worries – our lessons are not like in being in school. We focus on fun and interactive education using our own modern teaching materials appropriate for each level and age group. At Regen we offer different **English and German Courses**.

### English Classic (included)

Improve your language skills in a fun way by attending our interactive Classic Courses. Our teachers put a strong focus on oral practice and make sure that you build up your confidence and improve your communication skills in a playful way and without even noticing. You will breathe new vocabulary and internalize the right pronunciation by using the language and not by memorizing boring work sheets. At camp you will always be around our English speaking staff who encourage you to put your language skills in practice inside and outside the classroom. Attending camp will give you a boost of self-confidence and fresh motivation for your English lessons at school. Promised!

### TOEFL®-Course (+280 € )

Apart from our Classic Courses we also offer two-week TOEFL® Courses. The Test Of English as a Foreign Language is the most widely respected English language test in the world. At the end of the course you will take an exam to achieve the TOEFL® certificate. The great thing is that you can't fail the test. It just measures your ability to use and understand English as it's read, written, heard and spoken according to the CEFR – the Common European Framework of Reference for Languages (A1 to C2). Attending this special course is definitely worth it as you will receive a certificate that not only proves your level of English but is also accepted at schools worldwide in case you consider to spend a school year abroad.

For sure those courses are also designed to match your holidays. Nevertheless, they are intense and very efficient. We focus on improving your communication skills but grammar rules and writing small essays as well as sample test to prepare for the exam also form part of the curriculum. The use of modern teaching methods in and outside the classroom, incorporating topics that are suitable for the different age groups and levels guarantees a positive outcome and a pleasant classroom experience.

### German Classic (included)

Regen is the ideal place to learn German! Many students attend camp to extend their learning into the holidays with fun and interactive sessions. No worries if you do not speak any German yet. We offer classes at different levels from complete beginner to advanced. Similar to our English Classic Courses we focus on conversation and incorporate lots of fun activities and games to build up your vocabulary and strengthen your grammar. Join in and take the chance to improve your German, not only through our interesting lessons, but also by interacting with other campers during your free time. With so many Germans staying at camp, the opportunities to speak the language are endless.

## DEUTSCH

### German Goethe (+ 280€)

For those of you who are staying for at least two weeks we also offer special courses preparing you for the Goethe certificate. The Goethe-Institute's German language examinations correspond to the levels of the Common European Framework of Reference for Languages (CEFR) and range from A1 for beginners to C2 for language skills at the highest level and are internationally recognized.
